Here's your opportunity to be more inspired and effective in what you do.

If you're torn about adding professional development to your schedule this year, you should know that signing up for a two-week-long CCELC Online course will be well worth your time and that of your co-workers.

Our expert facilitators—all educators and content specialists—have rigorous training to ensure that online discussions are relevant. You'll be sharing experiences, insights, and camaraderie with other officers as you learn about one another's experiences in the discussion forums. Not only will your learning come alive, but you'll form new friendships in the process. Be more: Enroll in a CCELC online course!

CCELC online courses are designed for probation and parole agencies in five critical areas:

- Officer Safety in the Community
- Introduction to the Supervision of Sex Offenders
- Motivational Interviewing
- Individual & Group Cognitive-Behavioral Approaches
- Family Dynamics & Domestic Violence

CCELC courses for professional development are entirely online! Courses take about an hour a day over two weeks and are accredited for 16 hours. If your computer can access the Internet, you can take a CCELC course.
